Rick's Standard Station | Lancaster, WI

- Opened and closed locally owned full service gas station.
- Performed oil changes, tune ups, and various other gas station services.

DRAFT

I was at Harrods Creek Fire for 20 years. During that time I did reports to the board so I am familiar with the way they are conducted. I was also present during the transition from having paid day staff and volunteers to having full coverage and volunteers. I have also been through many fire chief searches in my 30 years. My priority is to making sure that we do what's best for our community's safety, our firefighters safety, and our fiscal responsibilities.

BIOGRAPHY

Neil A. Webster

[REDACTED], Pewee Valley, KY 40056

Neil.webster@odor.net

INTRODUCTION

Mr. Webster is a retired registered Professional Engineer who started an engineering business in 1984 in Louisville, KY, that specializes in controlling odors and ventilation for wastewater treatment plants (WWTP) throughout the country. As President of the company, he was responsible for design projects, personnel management and profit/loss assessments. He is also currently president of a non-profit organization that serves the Dominican Republic that has grown significantly over the years, to include seven churches, a school, a drinking water facility and a Medical Clinic.

CAREER HISTORY

Neil was a Peace Corps volunteer out of college and worked on providing water resources for the country of Western Samoa in the South Pacific. He worked for the Louisville Metropolitan Sewer District (MSD) as Operations Manager of the large Morris Forman WWTP before starting his own business in the early 1980's. During his career with MSD, Neil managed the operating staff at the plant and was responsible for compliance with State and Federal permits. Compliance with confined space entry procedures and the safe handling of hazardous chemicals stored on the site were part of his work responsibility. As the founder of Webster Environmental Associates, he oversaw the growth of the company that specialized in odor control nation-wide and designed systems to provide proper ventilation for buildings and rooms to comply with National Fire Protection Association guidelines to prevent fires and to ensure safe working environments for employees.

EDUCATION AND INTEREST IN THE POSITION

Neil graduated from high school in Louisville and received a B.S. and M.S. in Engineering from Purdue University. He has resided in Pewee Valley for 33 years and views his candidacy for the Pewee Valley Fire Department Board of Trustees as an opportunity to provide a service to the community, where he can volunteer to use his skills to the benefit of others. He has worked effectively with other members on Boards that provide oversight for organizations doing good work for communities.
