- Received one letter of support.

Jim Silliman, Oldham County Engineer

- This is a very minimum change to the plan.

Commissioner Miller asked, with the change in zoning for the development plan for these three lots, is there any degradation to the amount of foot storage for the stormwater detention areas result of taking this out of the CO-1 and putting it into R-1?

County Engineer Silliman replied, they have the proposed detention basin here, which they have yet to design, but it will be included in that. And it provides a little bit of additional buffer, and your natural topography was leading there anyway.

John Talbott, Bardenwerper, Talbott & Roberts, 1000 N. Hurstbourne Pkwy., Louisville, was present and representing the applicant.

- We are reducing the development area and increasing the open space for this development.
- We are here to rezone a tiny area in our approved development plan.
- The previous development the two lots was over one acre and with the zoning change we can make those two lots into three smaller lots.
- The buffer between these lots and the neighbors will increase to approximately 100 feet with the three lots verses it was approximately 25 feet with the two bigger lots.

Zoning Map Amendment – 3 total lots (1 new lot)
Current Zoning – CO-1, Conservation District
Proposed Zoning – R-1, Residential District
Applicant – CAY Properties, LLC
Engineer – Land Design & Development, Inc.

John Talbott, Bardenwerper, Talbott & Roberts, 1000 Hurstbourne Lane, Louisville

- Wanting to rezone two lots in an existing subdivision from CO-1 to R-1.
- CO-1 zoning requires the lot to be bigger than the R-1 lot and these two lots would be bigger than the other existing lots in the subdivision.
- The rezoning would give three lots instead of two.

AGENCY COMMENTS:

John Hine, Planner, Oldham County Planning and Development Services

1. Show proposed or existing fire hydrant locations.
2. Note that Section 7.3 (E) of the Subdivision Regulations requires a minimum water main size of 6 inches. If 3-inch line shown is to be removed, include that information in the plan.
3. Include existing man-made features such as houses, barns, fences that are already constructed.
4. Show the location of drainage facilities.
5. Areas of steep slope should be shown or a notation made if none are present.
6. Your next step is to submit the Zoning Map Amendment application for consideration by the Oldham County Planning Commission. Should the Planning Commission recommend approval, you will submit an application to the Oldham County Fiscal Court for final approval.

John Hine read Kim Loechle with MSD's comments:

- Applicant needs to submit a DFC (Downstream Facilities Capacity) request to ensure downstream sanitary sewer capacity.
- DFC form & instructions can be found on MSD website:
<https://louisvillemisd.org/programs/lateral-extension-sanitary-sewers>, fees may apply.

John Hine read Louisville Water Company's comments:

- Nearest water main size is 8 inches.

John Hine Read North Oldham Fire Department's comments:

Jim Silliman, Oldham County Engineer

1. Since this project is known as 'The Reserve at Paramont, please use that title for all future submissions and correspondence.
2. By comparing this plan to the PC plan approved at PZ-22-024, it appears this plan is only seeking to rezone 0.5 acres of CO-1 to R-1 and subsequently adjust lot boundaries for two lots and add lot 156. If that is correct, and no additional changes to the original PC plan are proposed, Oldham County Engineering has no additional comments.

Public Comments:

Erin Langley, Pitt & Frank Attorney, 500 N. Hurstbourne Lane, Louisville

 - Mike Hill, Land Design & Development replied, the outflow direction will be away from Mr. Greising property, and the conceptual plan aligns with natural drainage.
 - County Engineer Silliman replied, Basin must be designed to release equal or less than pre-development flow for 2, 10, and 100-year storms per post-construction stormwater ordinance.

Neighborhood Meeting Summary

A neighborhood meeting was held on Wednesday, April 15, 2026, beginning at 6:00 p.m. at the North Oldham Lions Club located at 12414 W. Highway 42, Prospect, Kentucky. Those in attendance included the applicant's representatives, John Talbott, attorney with Bardenwerper, Talbott & Roberts, Mike Hill, land planner and engineer with Land Design & Development, as well as the applicant Steve Canfield with CAY Properties, LLC.

John presented a PowerPoint presentation to the 3 people (one being an attorney for a neighbor) in attendance showing aerial photographs and development plans showing the changes between the previous approved plan and the current plan. John explained the applicant/developer's desire to change two larger lots into three smaller lots. He explained that by doing so, the area of open space will increase, creating a larger "buffer" from the closest adjoining property owner because the rezoning will allow smaller lots to be created that are not as deep.

A question was asked if the detention basin is being removed since it was not on a slide showing the color development plan presented to neighbors. John assured them that the detention basin will be located in the same place as previously proposed, although the exact placement is subject to approval of construction plans.

Another neighbor asked about the open space. John advised them that there were no trees in this area, so there are none to protect. The area currently is simply open farmland.

Finally, John explained the process and steps that this development would need to take and then the meeting was adjourned.
